Sir:

In response to the outstanding Office Action, dated April 9, 2003, please amend the above-identified patent application as follows.

IN THE SPECIFICATION:

30 Please amend the specification as indicated in the enclosed marked up version of the original specification. A substitute specification incorporating such changes is also submitted herewith.
No new matter has been introduced.

IN THE CLAIMS:

35

1. (Amended) An overload control method for use in a multi-branch Internet Protocol-based private branch exchange system within a network environment having a primary network and at least one alternate network, said method comprising the steps of:

maintaining a congestion indicator status associated with each path in said primary
